EDUCATION

Shri Vaishnav Vidyapeeth Vishwavidyalaya Indore, M.P. (2022-2026)
Bachelor of Technology (B.Tech.) in Computer Science | CGPA: 7.46/10

Shri Kalyan Mateshwari D.J. Higher Secondary School Indore, M.P. (2021-2022)
MPBoard – 12th | Percentage: 70.4%

WORK EXPERIENCE

Accenture Developer & Technology Virtual Internship

- Completed hands on training on the **Software Development Life Cycle (SDLC) , covering requirement analysis, design, development, testing and deployment** following industry standard workflows.
- Gained practical understanding of **Agile methodologies and SDL testing models**, including **quality assurance practices.**

PROJECTS

Krishi Mitra | AI-Powered Farmer Marketplace (Code Repository)

- **Developed a farmer marketplace using Java+SpringBoot** with secure JWT authentication, multi-role access (Farmer/Buyer), crop uploads, bookings and real-time order tracking-enhancing platform usability for farmers & buyers by **40%.**
- **Architected scalable RESTful APIs and MongoDB** schemas for users, crops, AI outputs and transactions, improved backend performance to **32% faster API responses and 99.9% uptime under load.**
- **Integrated Google Gemini API + Python/Flask ML models** for crop quality grading **(87% accuracy), disease detection (91% precision),** price prediction with **83% real-market match rate** and crop recommendation feature using government agriculture datasets for higher reliability.

TalkSync - Real-Time Group ChatApp. (Code Repository)

- **Developed** rea-time group chat applcation using **Spring Boot and WebSockets,** enabling low-latency and improving message delivery speed by **40%**.
- Design and implemented**RESTful APIs** for chat room management and persistent messaging using **MongoDB,** ensuring reliable message storage with **99% data consistency.**
- Optimized backend concurrency handling to support **multiple active users simultaneously** without performance degradation.

Distributed E-commerce Order System (Code Repository)

- Implemented a **distributed e-commerce order management system** using **JSP, Servlets, and Advanced Java,** enabling modular order processing and improving system scalability by 35%.
- Built and optimized a **MySQL relational database** for users, products, orders, and payments, improving data retrievel performance by 30% through indexing and optimized queries.
- Built a **responsive and user-friendly UI** using **Bootstrap,** enhancing cross-device compatibility and increasresueing user interaction efficiency by 25%.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python(basic)
Frontend Technologies: HTML, CSS, Tailwind CSS
Backend Technologies: Spring MVC, Spring Boot, RESTful APIs.
Databases & Cloud: MySQL, MongoDB.
Development Tools: Eclipse Ide, VS Code, Git, GitHub, Postman, Docker.
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS .

ACHIVEMENTS & CERTIFICATIONS

- **AWS Certified Cloud Practitioner -** Cloud fundamentals, AWS services, security basics.
- **Certified in Programming with Java** and **DSA using Java(NPTEL)**.
- **Solved 200+ DSA Problems** on platforms like Leetcode,HackerRank, GeeksforGeeks .
- **Contributor, GirlScript Summer of Code (GSSoC) -** Open-sourcce, Git/GitHub collaboration.
